MEETING

Our sales specialist talks with the customer over the phone or visits on-site, if possible. According to customer's wishes, budget, position, customer profile, product and project advice is delivered by expert. If the customer gives approval, it goes to the next stage.

Our expert architectural team with 42 years of experience aiming to create salon of your dream. Our expert team will respond your expectations timely and affordable way. In modern facilities of 9000 m² ready-to-meet products to be produced under ISO-EN 9001-2008 quality assurance. Alpedit architects and experience construction expert will be pleased to take their time to find out your salon needs. After you have approved 3D render of your salon project please have a relax while we finalising your salon.

ARCHITECTURAL MEASUREMENT

The sales specialist takes the architectural dimension of the salon and takes his photographs. The project along with the product information to be used is transmitted to the architect.

SETTLEMENT PLAN

The architect draws a two-dimensional layout plan in the light of incoming information. This plan is presented to the customer. Approval is taken and the next step is passed.

SIGNING THE CONTRACT

The contract signing and payment must be made in order for the special production products to pass to the production stage.

3D RENDER PRESENTATION

If the customer wants a 3D realistic computer rendered image is taken and presented. This presentation gives a clear idea of how it will look when the salon is over.

CONSTRUCTION and ASSEMBLY

The construction of the salon starts and the products are assembled after the completion of construction. If the customer wishes to construct the building, the necessary product drawings and material information will be sent to the salon or to the construction company. Controls are made during the construction phase.

PROJECT COMPLETION

The products are tested after installation and delivered to the salon.
